Spencer has made Barton creek a cleaner environment and keeping stuff better. Spencer likes to help others with things they need help on. Spencer thinks if we take away anything from our school we should get rid of the old sports equipment and get new sports equipment. After school Spencer does soccer and school homework. Spencer will try to make the school food because the energy we need to get through the day is not in high sugar food it is in meat, fruit, and vegetables. Spencer said he will try in all of his power to get after school activities like our school Clusters.
